Online Safety Policy

THE EVELINE DAY SCHOOL

Online Safety Policy – School

Our School is aware of the growth of internet use and the advantages this can bring. However, it is also aware of the dangers and strives to support children, staff and families in using the internet safely.

Keeping Children Safe in Education states "The breadth of issues classified within online safety is considerable, but can be categorised into three areas of risk:

- ✓ content: being exposed to illegal, inappropriate, or harmful material.
- ✓ contact: being subjected to harmful online interaction with other users; and
- ✓ conduct: personal online behaviour that increases the likelihood of, or causes, harm"

The Designated Safeguarding Lead is ultimately responsible for online safety concerns. All concerns need to be raised as soon as possible to the Head or Assistant Head Teacher.

Within the School we aim to keep children (and staff) safe online by:

- Ensuring we have appropriate antivirus and anti-spyware software on all devices and update them regularly
- Ensuring content blockers and filters are on all our devices, e.g. computers, laptops and any mobile devices
- Keeping passwords safe and secure, not sharing or writing these down. These will be changed at least every term to keep the devices secure
- Ensure management monitor all internet activities in the setting
- Locking away all devices at the end of the day
- Ensuring no social media or messaging apps are installed on nursery devices
- Management reviewing all apps or games downloaded to tablets to ensure all are age appropriate for children and safeguard the children and staff
- Using approved devices to record/photograph in the setting
- Never emailing personal or financial information
- Reporting emails with inappropriate content to the internet watch foundation (IWF www.iwf.org.uk)
- Ensuring children are supervised when using internet devices
- Using tracking software to monitor suitability of internet usage (for older children)
- Not permitting staff or visitors access to the School Wi-Fi unless supervised.
- Integrating online safety into School daily practice by discussing computer usage 'rules' deciding together what is safe and what is not safe to do online.
- Talking to children about 'stranger danger' and deciding who is a stranger and who is not, comparing people in real life situations to online 'friends'.

- When using Skype, FaceTime or Zoom (where applicable) discussing with the children what they would do if someone they did not know tried to contact them.
- Provide training for staff at least annually in online safety and understanding how to keep children safe online. We encourage staff and families to complete an online safety briefing which can be found at https://moodle.ndna.org.uk.
- We abide by an acceptable use policy; ensuring staff only use the work IT equipment for matters relating to the children and their education and care. No personal use will be tolerated.
- Under no circumstances should any member of staff, either at work or in any other place, make, deliberately download, possess, or distribute material they know to be illegal, for example child sexual abuse material.
- Children's screen time is monitored to ensure they remain safe online and have access to material that promotes their development. We will ensure that their screen time is within an acceptable level and is integrated within their programme of learning.
- The School is aware of the need to manage our digital reputation, including the appropriateness of information and content that we post online, both professionally and personally. This is continually monitored by the Senior Leadership Team.

All electronic communications between staff and parents should be professional and take place via the official School communication channels, e.g. the setting's email addresses and telephone numbers.; this is to protect staff, children and parents.

If any concerns arise relating to online safety then we will follow our safeguarding policy and report all online safety concerns to the DSL.

The DSL will make sure that:

- All staff know how to report a problem and when to escalate a concern, including the process for external referral if they feel it is needed
- All concerns are logged, assessed, and actioned upon using the School's Safeguarding procedure
- Parents are supported to develop their knowledge of online safety issues concerning their children with posters in each setting and emails with useful links to website such as https://www.internetmatters.org
- Parents are offered support to help them talk about online safety with their children using appropriate resources
- Parents are signposted to appropriate sources of support regarding online safety at home and are fully supported to understand how to report an online safety concern.
- The Professionals Online Safety Helpline (0344 381 4772 or helpline@saferinternet.org.uk) is shared with all staff and used if any concerns arise
- Refer to <a href="https://www.gov.uk/government/publications/safeguarding-children-and-protecting-professionals-in-early-years-settings-online-safety-considerations/safeguarding-children-and-protecting-professionals-in-early-years-settings-online-safety-considerations-

- <u>for-managers</u> to ensure all requirements are met in order to keep children and staff safe online
- Share <a href="https://www.gov.uk/government/publications/safeguarding-children-and-protecting-professionals-in-early-years-settings-online-safety-considerations/safeguarding-children-and-protecting-professionals-in-early-years-settings-online-safety-guidance-for-practitioners with the wider team to help them to keep themselves safe online, both personally and professionally
